

National Seminar EANET Ukraine

Michael Tuguntke
Projectmanager of EANET

My Welcome remarks

- Thanks Krok for organizing and inviting us at this seminar
- Thank previous speakers for their welcome
- Thank audience to be present, to attend to participate

Privilege

- For me it's a privilege to be part of this project and ..
 - to build relations with our partners
 - with the aim to stimulate entrepreneurship in our countries
- I am a facilitator so this gives me the chance to do what I like

Entrepreneurship

Entrepreneurship is a word that can be understood in a lot of different ways depending on the role you play or the position you have

For me entrepreneurship is about:

- Find out what you as a person are good at. Being good at something means that it fits with you, you like to do it, it's not an obligation but it's something you want from the inside
- Adding value to people, companies, organizations around you
- Create a combination between what you are good at and what people around you want in such way that they (your customers) are willing to bring an offer.
- To create a good life for yourself and for people around you.

I am good at promoting EANET

They remember us because..

Entrepreneurship and education

- Stimulating SME's
- Benefits for:
 - Student / Entrepreneur
 - University
 - Local government
 - National Government

My target for this 2 days:

- Celebrate that we achieved one of the milestones in our project
- Create new business opportunities for both Dutch and Ukrainian entrepreneurs
- Who can give me 1 business opportunity right now?
- Deepen contact with partners
- What targets do you have these days?
